Following **Revitalize Booster** clinical trials microneedling techniques obtain the best aesthetic results with less trauma for the patient.

Revitalize Booster can be used with other mesotherapy techniques such as High Frequency (HiFu), Electroporation and Mesogun. Please note that other techniques may require a different setting. Refer to your training manual.

Precautions:

Topical use only, **DO NOT INJECT**. Avoid contact with eyes. In case of contact with eyes, rinse immediately with plenty of water. It is not recommended to use this product if you are allergic to any of its ingredients. Keep out of children's reach. Store under 25°C in a dry place

Do not expose to direct sunlight.

ESSENCE.

IMMEDIATE AND
LONG-LASTING RESULTS

Revitalize Essence has an optimized potential to hydrate the tissues with added cross-link technology to give much longer-lasting results. It has both high and low-density molecules perfectly balanced to give optimum hydration coupled with a robust viscosity. This combination makes it a 'hybrid' product offering clients the rejuvenating properties of a top-quality mesotherapy serum whilst physically smoothing wrinkles and skin imperfections in a similar way that dermal fillers work within the tissues.

REVITALZE ESSENCE

Indication: Restores elasticity and promotes longer-lasting hydration.

Application:

Apply **Revitalize Essence** to the hands, face, neck, décolletage and body.

1st Month: 2 applications (once every 2 weeks).

2nd and 3rd Month: 1 application (once a month).

Maintenance: 1 application every 60 days.

Contents:

- **Sodium Hyaluronate Crosspolymer** - 52,5 mg/vial
- **Sodium Acetylated Hyaluronate** - 6,5 mg/vial
- **Hydrolyzed Sodium Hyaluronate** - 1 mg/vial
- **Sodium Hyaluronate** - 5 mg/vial

MYF515

Packaging: 2 vials, 5 ml each.

A patch test must to be carried out 24 hours before treatment (with a sterile needle pierce the skin superficially behind the ear or on the forearm apply a tiny droplet of the serum and leave in place for minimum 24 hours). **If the skin reacts do not proceed with the treatment.**

REVITALIZE PROTOCOL

0

Cleanse the skin thoroughly and apply anaesthetic topical cream to the treatment area.

After **15-20 minutes** check if the area is numb. Remove topical cream with gauze and warm water. Double cleanse using a suitable skin cleansing solution such as a micellar cleanser & blot dry. Mask the treatment area using clean gauze.

1

Draw up **1ml of Revitalize Essence** per **10x10 cm** area using a sterile syringe and needle and then remove the needle (two serums may be mixed together forming a cocktail).

Amount of solution:
1ml per 10 x 10 cm

2

Deposit droplets of the serum onto the treatment area & spread evenly using a cotton bud or a sterile gloved finger. **0.5ml** at the first application.

3

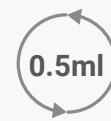

Choose depth on **Revitalize Pen** to maximum depth (**0.25-1.5mm on the face** or **2-2.5mm on the body**) using the maximum speed. Begin to stamp the serum into the skin covering all areas using vertical & horizontal lines.

Depth:
Face: **0.25-1.5mm**
Body: **2-2.5mm**
Speed: **fast**

4

Reduce the depth and the speed of the **Revitalize Pen** to **50%** previously chosen. Deposit the remaining **0.5ml** serum onto the skin. Use the **Revitalize Pen** in a circular motion across the treatment area.

Depth: **reduce by 50%**
Speed: **medium**

5

Gently massage any remaining serum into the skin. Allow to dry naturally. Use a high SPF factor cream following treatment to protect from UV light.

Post treatment advice: Keep the treated area dry for 24 hours & always wear a high SPF cream.

PURE.

THE EXPERT IN SKIN IMPERFECTIONS

Stretch marks, acne marks, scar marks and other skin imperfections are undesirable for anyone from an aesthetic point of view. The Revitalze Pure unique formulation has the perfect mixture and balance of collagen with hyaluronic acid. It increases the generation of new collagen fibres, repairs and reinforces the existing ones.

A repairing and restructuring treatment which was dreamed about, is now a reality...

REVITALZE PURE

Indication: For all skins that need to regenerate the texture and tonality.

Application:

Apply **Revitalze Pure** to the hands, face, neck and neckline, with electroporation techniques or radiofrequency. The microneedling technique can considerably speed up the results.

Month 1: 1 session every 15/30 days.
Month 2-3: 1 session every 30/60 days according to evolution.
Maintenance: 1 session every 60 days.

Contents:

- **Sodium Hyaluronate** - 12mg/ml
- **Hydrolyzed Collagen** - 5%

Packaging: 5 vials, 5 ml each.

BODY.

TIGHTENS SAGGING SKIN

Body and facial skin flaccidity is a direct consequence of aging and/or weight change. To maintain firm skin, without wrinkles, we must be consistent with a healthy diet and good hydration habits. Revitalize Body's formula is composed of organic compounds, DMAE and Dexpanthenol, proven to reaffirm and restore the collagen fibers that support the skin, re-shaping them and removing the sagging effect to combat flaccidity.

REVITALIZE BODY

HAIR.

STRENGTHENING HAIR MATRIX

Hair loss at an early age creates discomfort and embarrassment for anyone, man or woman.

Revitalize Hair acts in the prevention, re-densification, and stimulation of the hair folliculos matrix responsible for the hair, beard and eyebrow growth.

Moreover, **Revitalize Hair** acts at the dermal level on the fibroblasts situated next to the folliculos bulbs optimizing the development of the hair matrix.

BRIGHT SKIN.

LIGHTENING HYPERPIGMENTATION

Superficial pigmentation can be easily removed but deeper pigmentation requires a particular procedure. Mesotherapy treatments allow practitioners to reach the lower layers of the skin where pigmentation lies. Using Revitalize Bright Skin serum in combination with specialized devices will increase the freshness and glow of the skin.

REVITALIZE BRIGHT SKIN

Indications: Lighten skin tone and reduce pigmentation spots.

Application: Apply to the hands, face, neck, décolletage and body.

A patch test must to be carried out 24 hours before treatment (with a sterile needle pierce the skin superficially behind the ear or on the forearm apply a tiny droplet of the serum and leave in place for minimum 24 hours). **If the skin reacts do not proceed with the treatment.**

REVITALIZE PROTOCOL

0

Cleanse the skin thoroughly and apply anaesthetic topical cream to the treatment area.

After **15-20 minutes** check if the area is numb. Remove topical cream with gauze and warm water. Double cleanse using a suitable skin cleansing solution such as a micellar cleanser & blot dry. Mask the treatment area using clean gauze.

1

Draw up **1ml** of **Revitalize Bright Skin** per **10x10 cm** area using a sterile syringe and needle and then remove the needle (two serums may be mixed together forming a cocktail).

Amount of solution:
1ml per 10 x 10 cm

2

Deposit droplets of the serum onto the treatment area & spread evenly using a cotton bud or a sterile gloved finger. **0.5ml** at the first application.

3

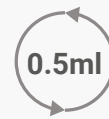

Choose depth on **Revitalize Pen** to maximum depth (**0.25-1.5mm on the face** or **2-2.5mm on the body**) using the maximum speed. Begin to stamp the serum into the skin covering all areas using vertical & horizontal lines.

Depth:
Face: **0.25-1.5mm**
Body: **2-2.5mm**
Speed: **fast**

4

Reduce the depth and the speed of the **Revitalize Pen** to **50%** previously chosen. Deposit the remaining **0.5ml** serum onto the skin. Use the **Revitalize Pen** in a circular motion across the treatment area.

Depth: **reduce by 50%**
Speed: **medium**

5

Gently massage any remaining serum into the skin. Allow to dry naturally. Use a high SPF factor cream following treatment to protect from UV light.

Post treatment advice: Keep the treated area dry for 24 hours & always wear a high SPF cream.
